

ANANTAM LOHITHA

Aspiring AI and Machine Learning Developer

+91-7780529836 anantamlohitha128@gmail.com Tallapudi, Andhra Pradesh - 534341, India

SUMMARY

I am a dedicated and proactive student specializing in Artificial Intelligence and Machine Learning, with a solid foundation in programming languages including C, Python, Java, HTML, CSS, and JavaScript. I have hands-on experience in web development and machine learning projects, showcasing my ability to build accessible applications and predictive models. My strong communication skills complement my technical abilities, allowing me to collaborate effectively in team settings

EDUCATION

Bachelor of Technology in Artificial Intelligence and Machine Learning

SRKR Engineering College

08/2023 - 05/2027 Bhimavaram, Andhra Pradesh

Intermediate (MPC)

Narayana Jr College

04/2021 - 03/2023 Rajahmundry, Andhra Pradesh

Senior Secondary Education

Sri Abhyasa E.M. High School

04/2020 - 03/2021 Kovvur, Andhra Pradesh

LANGUAGES

English

Proficient

Telugu

Native

Hindi

Advanced

SKILLS

Arduino

Cisco

CSS

Cybersecurity

HTML

Java

JavaScript

Python

PROJECTS

Accessible PDF Reader Web App

01/2023 - 02/2023

Full Stack Developer

- Developed a web application that enhances PDF accessibility by adjusting view settings based on user visual preferences (e.g., font size, contrast)

Campus Connect – Event Registration Web App

03/2023 - 04/2023

Frontend Developer

- Designed and developed a responsive user interface for students to log in and register for college events organized by various clubs and departments
- Focused on clean layout, intuitive navigation, and mobile-friendly design for a seamless user experience

Student Placement Prediction Model

05/2023 - 06/2023

Machine Learning Developer

- Built a machine learning model to predict student placement outcomes based on features such as CGPA, backlogs, age, and academic history
- Applied data preprocessing, feature selection, and classification algorithms to achieve accurate prediction results
